PREFACE

This publication shows, for the State of Victoria, the numbers of males and females in each City, Town, Borough and Shire and in each Non-municipal Town with 1,000 persons or more, classified according to the characteristics of the population recorded in the 1961 Census. The characteristics dealt with in the following pages are:—Age, Conjugal Condition, Birthplace, Period of Residence in Australia of Persons born outside Australia, Nationality, Religion, Industry and Occupational Status.

This is one of five Parts which will constitute the complete Census Volume for the State of Victoria, viz. EXPLANATORY NOTES

This Part contains particulars of the population in each City, Town, Borough and Shire and in each Non-municipal Town of 1,000 persons or more in Victoria according to various characteristics of the population.

The grouping into Statistical Divisions identical with that used in State statistical publications has necessitated the splitting of certain Shires into two parts, and in such cases particulars are shown in each Statistical Division for the part of the shire within that Division. An explanatory note is also added. The Shires and the Divisions concerned are as follows:—

Shire	Statistical Division
Berwick	Metropolitan Area of Melbourne Central
Bulla	Metropolitan Area of Melbourne Central
Eltham	Metropolitan Area of Melbourne Central
Fern Tree Gully	Metropolitan Area of Melbourne Central
Lillydale	Metropolitan Area of Melbourne Central
Whittlesea	Metropolitan Area of Melbourne Central
Kilmore	Central North Central

A map showing the location and composition of each Statistical Division and a detailed map of the Metropolitan Area of Melbourne, together with an index to facilitate reference to any local government area or town for which particulars are shown, are inserted at the end of this Part.

Under the system of local government in Victoria there were, at Census date, 71 Cities, Towns and Boroughs and 138 Shires. Cities, Towns and Boroughs are usually urban in nature, but some are, for Census purposes, classified as rural or partly rural. In these cases, any City, Town or Borough, or part thereof which is regarded as rural has been clearly indicated in the table. Shires, on the other hand, are usually rural in nature, but within Shires, Non-municipal Towns of 1,000 persons or more are, for Census purposes, regarded as urban and shown separately. They are indicated in the table by the letters " N.M.". In addition, parts of several shires have been included in urban areas and regarded as urban.

In addition to the area covered by the local government system there was an unincorporated area of 198 square miles which constituted about 0.23 per cent. of the total area of the State.

Statistics shown in this Part relate to Local Government Areas as constituted at 30th June, 1961, and do not take account of boundary changes since that date.

Particulars of full-blood aboriginals are excluded throughout.

Because of the limitation of space and the need for uniform presentation of data it has not been possible to publish more detailed information for Local Government Areas in each table of this Part.

(a) "Not at Work" includes those who stated that they were usually engaged in work, but were not actively seeking a job at the time of the Census by reason of sickness, accident, etc. or because they were on strike, changing jobs or temporarily laid off, etc. It includes also persons able and willing to work but unable to secure employment, as well as casual and seasonal workers not actually in a job at the time of the Census. The numbers shown as "Not at Work", therefore, do not represent the number of unemployed available for work and unable to obtain it. (d) For total population in Ballarat Urban Area see State Summary at end of Table. (e) Part in Central Division, part in North Central Division - See Explanatory Notes.
